

Meet the Teacher!

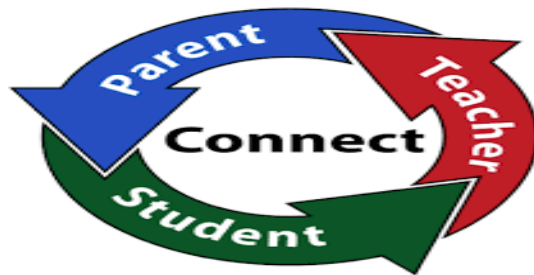

Experience:

Hello! My name is Estela Reynoso and I'm thrilled to say that this is my 25th year teaching at Ramona School; which means I have taught the children of some of my former students! I grew up in Los Angeles, California and graduated with a Bachelors in Child Development, a Bilingual Multiple Subject Teaching Credential, and a Masters in Education from Cal State University Los Angeles. I have been teaching 6th grade for the past 7 years, which is a rewarding experience!

Teaching Goals:

I am currently teaching Science and Engineering to all 6th graders. I look forward to teaching your child new and exciting skills, concepts, and activities. This is your child's first year of middle school, and I understand that being a parent of a middle schooler can at some times be challenging. Students will encounter many new changes so they will need our guidance and support. Our goal this year is to help your child develop a love for learning by becoming scholars. In order to accomplish this goal, teachers, parents, and students need to build productive relationships through collaboration and regular communication.

Communication:

Please feel free to contact me with any questions or concerns you wish to discuss:
